Forest Service – 85%
Montana DNRC – 10%
Idaho Department of Lands – 0%
Bureau of Land Management – 0%

Rationale for cost share:

1. All NRCG agencies benefited from the administration of best value agreements during the 2008 fire season. These agreements include engines, water tenders, soft tracks, skidgines, pumper cats, potable and gray water tenders/trucks. The estimated share of use of these resources is noted above as percentages of use by the NRCG member agencies.
2. Best Value Administration included field audits during the summer for non-budgeted time and travel of the Forest Service Fire Contracting Officer; NRCG Contractor Liaison and Forest Service Regional Equipment Inspector; temporary employee input of performance evaluations into the Equipment and Training Inventory System (EATIS) and summaries of resource utilization from the Resource Ordering and Status System (ROSS).

This Agreement and the apportionment described are our best judgments of fair and equitable Agency cost responsibilities.
